TO OUR CLIENTS

We desire to thank our many friends for the patronage that has been given us. The result is that we have increased our stock and now have a collection of plants of all varieties, comparable with the finest stock in the West. Our slogan "Choice Plants at Reasonable Prices" is still at the front.

A cordial invitation is extended to visit the Nursery and Show Garden at any time.

LOCATION OF THE NURSERY—Corner of McGee Avenue and Hopkins Street, ten blocks north of University Avenue and four blocks west of Grove Street.

SPECIALTY—We call particular attention to our list of rock plants to which we are constantly increasing new varieties. Our stock of these plants we grow in pots and they are ready for planting at any time of the year with no danger of loss.

PLANNING YOUR GARDEN—The owner contemplating a large garden will be better satisfied in the end if he secures the services of a competent landscape architect before making final building operations so that everything may be planned in a harmonious way. The Berkeley Horticultural Nursery does no outside planning or planting of gardens, but for the average home owner who desires advice as to proper location of a few plants we will gladly serve in that capacity. For those desiring of more service we are in a position to supply the names of the various landscape men capable of taking care of the individual wants.

SEASONS OF PLANTING—All potted and balled plants can be planted at any time of the year, contrary to popular belief. Well potted or balled plants can be planted with the same assurance during the summer months as in the winter and spring.

Fruit tree season extends from December to April, the earlier months being the best.

Roses are handled bare root from November to March and after that can be supplied in containers with the same assurance of flowering and growing.

WE AIM TO SEND PLANTS OUT IN FIRST CLASS CONDITION. GIVE THE SAME KIND OF ATTENTION WHEN YOU RECEIVE THEM AND SUCCESS IS YOURS.

GUARANTEE—The Berkeley Horticultural Nursery exercises the utmost care to have all stock reliable and true to name; nevertheless, it is understood and agreed that should any stock prove otherwise, the Berkeley Horticultural Nursery shall be liable only for the sum paid for the stock which may prove untrue, and shall not be liable for any greater amount than the original price paid.
